

WELCOME TO OUR COMPANY

For over 25 years, Phoenicia Maritime has been the anchor of reliability for vessels calling at Syrian ports. Founded in Tartous during Syria's maritime expansion era, we carry the spirit of ancient Phoenician traders, pioneers who mastered Mediterranean commerce through resilience and precision. Today, we honor that legacy by delivering critical ship supplies with uncompromising integrity.

While others retreated during difficult times, our team stood firm – sourcing fuel during shortages, navigating customs complexities, and delivering at 3 AM during harsh conditions. This commitment forged our reputation: "The problem-solvers of Syrian ports."

-  **Custom Solutions**
Every vessel and crew is different. We adapt to your specific needs, from specialty foods. To rare spare parts.
-  **COMPETITIVE PRICES**
Quality supplies at fair, transparent rates, no hidden costs.

OUR STORY

In 1996, as global shipping surged through the Mediterranean, Phoenicia Maritime began as a humble port-side supplier.

Through decades of regional challenges, we've grown into Syria's most resilient marine provisioner.

Our secret? A simple promise: "When your vessel docks here, we move."

While others retreated during difficult times, our team stood firm, sourcing fuel during shortages, navigating customs complexities, and delivering at 3 AM during harsh conditions. This commitment forged our reputation: "The problem-solvers of Syrian ports."
